

COMPROMISE TALK IS GROWING DAILY

No Chance for Primary Bill Passing Without Amendments.

POLITICS BEHIND IT

The Osteopathy Bill Seems to Have Rocks Ahead of It in the Assembly.

THE USE OF VOTING MACHINES

Madison, Wis., March 2.—It is practically conceded that if the primary election bill stands any chance of passage by this legislature it will have to be materially amended, a thing which the leading promoters of the bill have all along said that they would not consent to, and that in fact they would rather see the bill killed than have it done. Talks of compromise are growing daily, and considerable development is developing in favor of making the bill apply to only city and county officers and to the election of delegates to the various conventions.

Unless some such change is made the bill stands no chance in the senate, and it is even claimed that it cannot go through the assembly, where even the avowed friends of the measure are now claiming only a small majority.

They still insist, however, that the bill substantially in its present form will pass both houses. They say that it will be amended to some extent in the committee but decline to say what the amendments will be.

Stephenson for Senator.

One of the numerous petitions which has come in during the week is in favor of the primary election bill was headed by ex-Congressman Isaac Stephenson of Marinette. This lends color to the report that Mr. Stephenson will be the administration candidate for United States senator to succeed John C. Spooner.

One incident of the week was the killing of the Lenox resolution for a constitutional amendment permitting cities to increase their debt limit from five to ten per cent, for the purpose of acquiring water works, electric lighting plants and other like public utilities. It was killed in the assembly after having been ordered to engrossment and the third reading. Northern Wisconsin cities were especially anxious for the passage of the bill as a large number of them are desirous of issuing bonds for the building of electric lighting plants and the purchase of water works.

The Osteopathy Bill.

The bill legalizing the practice of osteopathy, which passed the senate last week by a large majority, is now side tracked in the assembly committee on public health and sanitation, and appears to have rocks ahead of it. It is even said that it will be reported for indefinite postponement unanimously. But that will not end the fight as the osteopaths have warm supporters on the floor and they have a strong lobby at work day and night. On the other hand the senate committee on health and sanitation has been for a month holding up the anti-cigarette bill, which was rushed through the assembly under suspension of rules. Chairman Eaton says that the hearing held on Wednesday afternoon, at which Attorney Albert E. Roe, Governor La Follette's former law partner, made a strong argument against the bill as the attorney for the tobacco men, will be reported next week. When asked how it would be reported he shakes his head, which may be taken to mean either that he does not know or that the report will be unfavorable. General opinion is that the report will be for indefinite postponement and that the senate will support the report.

Apportionment Problem.

The apportionment committee held its first meeting on Thursday afternoon. Each of the subcommittees comprised of one senator and two assemblymen from each congressional district, submitted its report of preferences for the make-up of assembly districts. The total figured up 103 districts, three more than the law allows. The problem now confronting the committee is how to cut out the three districts. Chairman Riordan's idea, which the committee has adopted, is to make the apportionment in three separate bills, one covering the assembly districts, one the senate and one the congressional. The purpose of this is to avoid the delay which would be caused by efforts to make combinations if all three were included in one bill.

Mr. Hall's amendment proposing a

constitutional amendment permitting the use of voting machines in Wisconsin was passed in the assembly. Of course it must go through the legislature again two years from now and be ratified by the people before becoming operative. Mr. Hall says that Wisconsin may not be ready for the voting machine now but will be by the time that the amendment is affected. In his opinion a constitutional amendment is not necessary to use certain machines now on the market, but he thinks that it is better to prepare the way for all of the best machines, so that if the legislature should decide to adopt the new style of voting, so successful in certain eastern localities, the state would not be at the mercy of the manufacturers of a certain style. The voting "machine" is the only machine in politics which has ever received Mr. Hall's support. He is an enthusiast on the subject however and favors one kind called the "McTammany" in all respects save name.

The bill requiring a license for teaching dancing and providing a state board of dancing masters will probably be laid on the table beside the Norton bill taxing bachelors over thirty years. Before it gets there, however, the members will have some fun with it. Professors Andrew C. Wirth of Milwaukee and F. W. Kehl of Madison have registered as legislative counsel to lobby for the bill. The legislators look at the bill in about the same light as they did at the Daggett anti-corset bill two years ago, but the dancing masters take the matter very seriously and insist that there is just as much reason to allow only competent persons to teach in their profession as in the case of doctors, lawyers, dentists, et al.

TO EDUCATE MASSES IN MISSION WORK

Big Congregational Rally for Mission Promotion to Be Held in Milwaukee Next Week.

Milwaukee, March 2.—All of the Congregational churches in the district, which includes Milwaukee and vicinity will give up their Wednesday evening prayer meetings and unite in a big afternoon and evening missionary rally at Plymouth church this week. Speakers and missionaries whose reputation is national will be present to address three meetings which will be held. Delegations are expected to be present from Racine, Kenosha, Janesville, Beloit, Waukesha and other cities in the southeastern part of the state.

The meeting will be one of a series that is being conducted throughout the United States for the education of the masses in the details of mission work rather than in the collection of funds to keep the missions on their feet. The last meeting held was in Chicago, and missionaries and mission society officials are co-operating in the conduct of the gatherings. Other meetings of a similar character are to be held in other parts of the state.

NO EXODUS FROM CAPE NOME

Steamer Newport Found No Passengers at Katmai—Alaska News.

Port Townsend, Wash., March 2.—The expected exodus from Cape Nome by way of the Katmai route failed to materialize, according to reports brought by the steamer Newport, arriving from there. The Newport sailed from here five weeks ago, expecting to find a large number of passengers at Katmai who were to reach that place over the snow and ice from Nome, but when the Newport sailed from there Feb. 20 not a single person had arrived. On the way to Katmai the Newport called at Valdes and was caught in the ice, where she was held eleven days, and it was with much difficulty that she freed herself.

The steamer Excelsior was at Valdes when the Newport called on the way down, and should arrive in two days.

The steamer City of Seattle arrived from Lynn Canal, bringing forty passengers, some of whom are direct from Dawson. They report 400 people on the river trail and that a large quantity of freight is being transported over the ice to the Klondike. The City of Seattle brings word that the Indians at Ketchikan are afflicted with an infectious skin disease resembling smallpox and that nearly the entire tribe is suffering from it, but that no deaths have occurred. The tribe is in a pitiable condition and suffering from hunger and cold.

Miner Shot Dead by Marshal.

Springfield, Ill., March 2.—John Golden, a miner at Cantrill, was shot and killed by George W. Johnson, the village marshal, who was taking him to the lock-up. Golden resisted and succeeded in getting possession of the officer's club. Johnson then drew his revolver and fired. He came to Springfield and gave himself up.

C. F. Tallard of Edgerton was a business caller in this city yesterday.

DELIBERATE AND COLD BLOODED LYNCHING BY A MISSOURI MOB

Negro Hanged by an Orderly Crowd for Shooting and Killing a White Man—Not a Shot Was Fired at the Corpse.

Camden, Mo., March 12.—"Dewey" Smith, alias Bob O'Neil, was hanged by an orderly crowd of several hundred miners shortly after midnight. He was a negro miner and in a quarrel yesterday afternoon killed a fellow workman, Charles Stanley, with a pick. Smith was arrested at sundown and while the sheriff held him a mob gathered and demanded the prisoner. Sheriff Cromley then made an address begging the crowd not to disgrace the name of Missouri. The appeal was cut short by a rough shout for the prisoner.

The sheriff was felled to the gutter and Smith taken back to the scene of the killing. The crowd told him to pray if he thought that it would do him any good. He said that he was sorry that he had killed Stanley but that he did it in self defense. At two twenty-five o'clock he was strung up and five minutes later pronounced dead. Not a shot was fired at the corpse. The proceedings were deliberate and cold-blooded. Everything is quiet today.

FARMERS' INSTITUTE HELD AT EVANSVILLE

Papers on Topics Interesting to the Granger Read and Discussed—Attendance Was Large.

Evansville, Wis., March 2.—A large and appreciative audience was in attendance at the first day's session of the farmers' institute held in Magge's opera house yesterday. Pres. W. H. Gillies called the meeting to order and after a few preliminary remarks they proceeded with the day's program.

W. E. Bullard read a paper containing many good suggestions on wool growing. Mr. Bullard having been a dealer in that article for a number of years, handled the subject in a masterly manner.

In the discussion which followed the members of the institute decided that the Shropshire crossed with the Merino produced a better grade and finer texture of wool than any other. The subject of good roads was then taken up and discussed. Many theories were advanced but no definite methods were adopted.

In the afternoon session the orchestra from the high school favored the institute with a selection after which Eugene Butts read an amusing paper on Bicycle Riding. J. C. Devereaux followed with an interesting paper, "The Model Home." This will be found in a later issue of The Gazette.

The subject of corn was brought up for discussion—the variety best adapted to the section and the manner in which it should be planted and cultivated.

A lively discussion ensued on this subject as every member was interested in the production of this article.

Mr. Schultz of Oregon gave an interesting talk favoring the Groat bill. In brief he stated that oleomargarine was detrimental to the health of the consumer, was a drag on the market and that either the farmer with his dairy or the manufacturer had to get out of business.

Many questions were asked by the speaker and much opposition was manifested as against the bill.

The Farm Home was beautifully sketched in a paper read by Mrs. Retta Johnson. The home of the pioneer as compared with that of the progressive farmer of today and of what constituted an ideal home were the chief points brought out in the discussion.

The evening session was a musicale by the students of the seminary under the direction of Miss Best.

A small admittance fee was charged to defray the expense of the institute.

DR. KENNEDY HAS A DOUBLE.

Man Strongly Resembling Him Was Friend of Dolly Reynolds.

New York, March 2.—Attorney Moore of counsel of Dr. Kennedy, whose second trial for the murder of Dolly Reynolds resulted in a disagreement of the jury, declares he has found a man who looks like a twin brother of Dr. Kennedy and who was a personal friend of Dolly Reynolds. He said further:

"I am of the opinion that this man was with Dolly Reynolds at the Grand Hotel on the night of August 15, 1898, the date she was murdered. I do not want to be understood as saying that this man killed Dolly Reynolds, but if he were to come to the front he could clear Dr. Kennedy of the charge under which he now rests."

The attorney further said he had informed District Attorney Philbin of the above fact and had furnished Mr. Philbin with the man's name, asking him to send for him. He added that Mr. Philbin told him that he did not want to interfere, since he had placed the prosecution in the hands of Assistant District Attorney McIntyre and nothing was done.

FOIL PLOT TO KILL A KING.

Brazilian and Italians Make Three Arrests—Save Italy's Ruler.

Rio Janeiro, March 2.—The police have arrested here two Italians—Cecilia and Donato—who sent a letter to the king of Italy announcing that a conspiracy had been formed to take his life. Both prisoners, pressed by the police, confessed that a man named Lavechia had sailed for Genoa, and planned to put dynamite beneath the Quirinal and explode the palace. The Brazilian authorities immediately cabled to Rome and Genoa. The chief of police of Genoa replied that Lavechia had been arrested.

HARD AFTER REBELS IN SOUTHERN LUZON

Twenty-One Officers and 120 Bolomen Yield to a Company of the 47th U. S. Volunteers.

Manila, March 2.—Twenty-one insurgent officers and 120 bolomen have surrendered to Lieut. Desque of the Forty-seventh United States Volunteer infantry at the town of Irocin in Albay province, southern Luzon.

The federalists are securing many new members for their party in Laguna province, east of Manila.

Conservatives to Judge Taft.

The promoters of the conservative party have published a long address to Judge Taft, president of the American Philippine commission, written in flowery and fulsome language, the gist of which seems to be expressed in the following paragraph:

"We confess to being distinct from some of those men who are co-operating with the American government for peace in that particular which refers to the maintenance against restrictions and exactions of our program, which places the maintenance of peace subject to a compliance with the conditions which would lead to a point whence there is no outlet. We believe there is no better means of perpetuating it than an absolute and unconditional adhesion as younger brothers, and as conditions may admit this country can be raised to the level of its aspirations, blessing the hand which strengthened it and kissing the hand, if it so deserves, that cut asunder the last cord of its dependency, and thus converting it into its own equal."

Vassili Verestchagin, the Russian painter of battle scenes, has reached the Philippines searching for new war pictures. He has called upon Gen. MacArthur. Verestchagin is favorably impressed with the American soldiers and has made many sketches of the battlefields near Manila.

Gold Mining in Lepanto.

Excitement over gold mining in the province of Lepanto in northern Luzon is increasing. A number of pockets have been discovered, but no well-defined ledges have been found.

Senator From Mississippi Appears in Police Court For Slapping Miss Lucy Leeton.

Washington, March 2.—The case of Senator Sullivan, Miss., charged with assaulting Miss May Lucy Leeton by slapping her face, was disposed of in the police court this morning by the senator forfeiting twenty dollars collateral. Miss Leeton has a breach of promise of marriage pending against the senator.

FOUR TRAINMEN DEAD

Three Fatally Wounded and Several Seriously Injured in a Tennessee Railway Wreck.

Knoxville, Tenn., March 2.—Four trainmen were killed, three fatally wounded and several seriously injured in a freight wreck on the Southern railway near Lenoir this morning. A mistake in orders is said to be the cause.

TO PUT M'KINLEY IN A GLASS CASE

The President Will Be Protected Against Wet and Wind March 4.

WEATHER IS UNCERTAIN

Oath of Office To Be Taken by the President is Very Simple.

OLD VETERANS FALL IN LINE

Washington, D. C., March 2.—The most important question now is the weather for inauguration day. All of the other preparations are now more complete, extensive and perfect than have ever been known before, but neither the local committee nor the national committee, nor the congress nor even Mark Hanna can control that.

The weather bureau tells us that the indications are for a warm day with a tendency to rain. That sort of weather is now prevailing over a good part of the Mississippi valley and the pressure is sending it this way. Of course the impressiveness of the parade depends upon the weather as well as the enjoyment of the spectators. The stands which have been erected this year are as well sheltered and protected as possible against the wet and the wind. The president is going to be put in a glass case so that there will be no danger of his taking cold, while he reviews the column that will be four or five hours long.

There have been twenty-eight inaugurations days. Thirteen were pleasant, twelve were stormy and there is no record of the weather on the other three days. Most of the pleasant inauguration days occurred during the earlier history of the republic. Of the last fifteen inaugurations eleven were stormy and only four were pleasant.

The Oath of Office.

The oath of office to be taken by the president on next Monday is very simple compared with that of the king of England. It is prescribed by the constitution as follows:

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and to the best of my ability protect, preserve and defend the constitution of the United States."

This oath is slowly repeated after the chief justice standing upon a platform erected on the east front of the capitol, from which the president also delivers his inaugural address. They hold between them an open Bible especially procured for property of the president after it has been appropriately inscribed and sealed by the chief clerk of the supreme court. At the close of the oath the president bows and presses his lips upon the open page.

Veterans Fall Into Line.

The dispute between the inaugural committee and the war veterans over the matter of precedence on the day of the parade on Monday resulted today in a compromise, under which the veterans will take part to a certain extent in the ceremonies.

At a conference between General Root, General Francis Greene, Grand Marshal of the Parade, and General Daniel Sickles, it was decided that the local and visiting Grand Army veterans will form the honorary escort to the president from the White House to the capitol on March 4. The further conclusion was reached that the veterans will not participate in the afternoon parade on the return from the capitol to the White House, but after the procession has passed the Court of Honor they will be reviewed by the president.

SHOTS WIFE AND SELF.

Jealous Kewanee (Ill.) Man Uses a Revolver with Effect.

Kewanee, Ill., March 2.—In a fit of jealousy Edward Van Dorp, a well-to-do mechanic, shot his 25-year old wife at 6 p. m. Turning the revolver upon himself, he then attempted suicide, the shot passing through the body just below the right ribs. When neighbors came after the shooting they saw his wound, but while they were gone for help he made his escape and has not yet been found, although searching parties under the direction of City Marshal Hawthorne have been out since 7 o'clock. Mrs. Van Dorp is shot through the right side of the body and cannot live.

Ross Over and Kills Father.

Grinnell, Ia., March 2.—John Boyenga, a young farmer living near Ackley, ran over and killed his father while racing horses on the highway.

STIRRED UP THE TOBACCO MARKET

The Wisconsin Tobacco Reporter of March first has the following article in regard to the amount of damage in the 1900 crop of tobacco.

The firm of Sutter Bros., who are credited with starting the damage scare on Wisconsin tobacco so generously quoted over the country, say that the Chicago papers have misquoted them. They, however, admit that they estimated the damage to be in the neighborhood of 25 per cent, but how the papers came to make them say 50 or 60 per cent, is an exaggeration that they cannot understand.

This estimate is not far out of the way and coincides with an opinion expressed in this column several weeks ago and had the truth been told no such scare would have been given publicity.

Some of the New York tobacco papers are now echoing the scare started in the west some time ago and are industriously helping to "black-eye" the Wisconsin 1900 crop. What is surprising to a great many people is the frequency these journals will lend their columns to aid designing people in puffing or discrediting in the eyes of the market any particular product.

It is not a pleasant matter to refer to, but when it is so patent on the face of it that the market is doomed or decreed to add the financial interests of large holders of certain lines of tobacco, the facts can hardly escape detection of the readers of these journals, who depend upon them for reliable information on these subjects.

Growers who have had their crops turned back upon them through rejections, may find some consolation in a few well-known principles of law that might be briefly stated. Written contracts can only be cancelled by mutual consent of the parties thereto. Tobacco dealers make a mistake when they say that they can repudiate their contracts without liability on their part. They will have to pay for all of the sound tobacco tendered them under their contracts, otherwise the farmers can sell the same in open market and recover the difference, or their loss as damages for the breach of the contract. The growers who desire to force a delivery should carefully sort their tobacco, throwing out of the damaged and wet tobacco and then insist that the tobacco dealers take and pay contract price for all sound leaf. Of course a legal delivery or tender must be made by the farmer before proceedings can be instituted. The writer is not urging growers into litigation, nor do we advise it, but simply points out a way to safely succeed, should our readers be hunting for trouble.

STEREOPTICAN VIEWS

Lecture or Sermon on "The Prodigal Son" by Wm. B. Culliss at Court Street M. E. Church.

Tomorrow evening a stereopticon lecture or sermon on the prodigal son will be given at the Court Street M. E. church by Evangelist Wm. B. Culliss. The pictures and discourse evoke high praise everywhere. The following is from the State Journal of Madison:

"The striking truths of the parable were illustrated by reproductions of four great paintings. The first, the old city of Jerusalem, typifying the shelter of home, from which the young man went out to 'see the world.' He walked in the path that thousands of millions of young men have trodden during the centuries that have rolled back into our past. A great painting of him in the midst of women and wine and games of chance—a canvas by a celebrated French artist—was striking. The third picture showed him in desperate straits as a herder of swine, hungry, almost naked and most bitterly repentant. The final and greatest picture of this remarkable group was the welcome of the prodigal by the father, grand and noble in treatment seeming a rock to which the shame bowed son is clinging. Incidental to the sermon was the singing of popular gospel hymns.

"Mr. Culliss is a man of wide travel

and enviable experience. After completing his studies for the ministry he devoted several years to the work of general secretary of the Philadelphia association, and to lecturing in the interests of the associations, visiting all of the large cities of this country and Canada. Following this he settled in Philadelphia as pastor of one of its churches. He held pastorates in Scranton, Philadelphia, Milwaukee, Racine and Chicago. He has alternated between the pastorate and the evangelistic work of the ministry and has been associated with Moody and with all of the leading pastors of all denominations in this country and Great Britain.

Mr. Culliss proposes giving other views of the gospel from nature and some illustrated hymn or hymns in which he will be ably assisted by the Court Street M. E. church quartet. There will be no charge of admission tomorrow evening.

AMUSEMENT NOTES

Instead of using what are known as 'extra people' in his coming production of "Prince Otto," which Otis Skinner is to present here March 12, he will, it is said, employ the services of people who have had considerable stage experience. It is the general rule of the theatrical companies to employ a number of supernumeraries to fill up the stage, and sometimes they are satisfactory and sometimes not. Generally they are so palpably newcomers to stardom that it is noticeable from front. It is authoritatively stated that the 'extra people' which Mr. Skinner will use are all experienced players, and they have been selected from some of the best schools of acting in the country.

Warner-Chant Wedding.
The home of Mr. and Mrs. Spencer Warner of the town of Turtle was the scene of a merry gathering Wednesday evening, it being the occasion of the marriage of Merl L. Warner and Alice M. Chant, both of Turtle. The ceremony was performed by Rev. W. W. Sleeper of Beloit, and was witnessed by a large company of relatives and friends, both young people being exceedingly popular. The house was prettily decorated in honor of the event and every appointment was perfect. After the ceremony and words of congratulation and best wishes were spoken, the bridal party and guests sat down to a delicious wedding supper. Many handsome as well as useful gifts were received, testifying to the love and esteem in which the young people are held.

English Pencil Driven Out.
Baron Johann Faber, who died in Nuremberg, Germany, recently, was practically founder of the celebrated lead pencil factory carried on under his name. When a young man he succeeded to his father's business, which turned out cheap pencils of an inferior sort, he employed twenty hands. Now over 1,000 men work at his different factories. Faber succeeded in driving English made pencils, at one time in almost universal use, out of Germany.

ART SECTION OF THE ART LEAGUE

The Art Section of the Art League met with Mrs. Ashcraft on Friday, Mrs. Capelle presiding and Miss Ida Harris secretary. Mrs. Powell presented a paper on Pitti Palace, that answers a pile of rugged stone, sombre with out, and adorned with lavish magnificence within. A paper by Mrs. Pember on Pitti gardens was read by Mrs. Tarrant. The fine view of the beautiful statues were especially dwelt upon. Mrs. Wood also read a selection describing the gardens. Mrs. Parker's paper on the Pitti gardens was read by Mrs. Capelle. Many of the pictures were mentioned, beside the treasures of cups, vases and beautiful tables, which were enshrined in the galleries. Mrs. Wood gave an interesting account of the mosaics contained there and of the mosaic workers. The league had voted at a previous meeting to send a book to a club at Cando, N. D., as a contribution toward a library. A letter was read from the club asking for the book, "Wild Animals I Have Known," by Earnest Seton Thompson and this will accordingly be sent them.

News from Beloit.

Beloit Wis., March 2.—[Special]—W. G. Hamilton of this city, a former bookkeeper at the Berlin Works, and Miss Jessie Mott, were married at Rockford last Saturday. It was a surprise to their friends when they learned of it yesterday. Mr. and Mrs. Hamilton are stopping with Mr. and Mrs. Harry Mott for the present. Both parties are well known in this city, and Mr. Hamilton has many friends in Janesville.

M. D. Larson of MacFarland, Wis., and J. Thorstad were in the city today, the guests of John Thompson, looking over a site for the Lutheran Academy. These men are members of a committee of five appointed to look over the respective advantages of Beloit and Albion. The gentlemen were shown around town and inspected the proposed site of the school. They were much pleased with the beauty and desirability of Beloit as a location for the school. The committee are expected to report on both places at a convention at Madison March 15.

Last Wednesday word was received here of the death of Mrs. Wyatt Tattershall at Beloit, Iowa, aged eighty-two. Yesterday there came a telegram announcing the death in Chicago of Mrs. Henrietta Tattershall aged ninety years. Widow of the late R. Tattershall of this city. The two sisters married two brothers. The remains arrived today over the Northwestern road on the 11:28 train. Rev. T. T. Creswell and Rev. W. F. Brown conducted the services at the grave. Interment was in the city cemetery.

THE OUTLOOK

For a woman's happiness in the married state depends less, as a rule, upon the man she is to marry than upon her own health. The woman who enters upon marriage, suffering from womanly weakness, is "heaping up trouble against the day of trouble."

Weak woman are made strong and sick women are made well by the use of Dr. Pierce's Favorite Prescription. It is the one reliable regulator. It dries enfeebling drains, heals inflammation and ulceration and cures female weakness. It nourishes the nerves and invigorates the entire womanly organism. It makes the baby's advent practically painless, and gives strength to nursing mothers.

"I suffered for twelve years with female trouble," writes Mrs. Milton Grimes, of Adair, Adair Co., Iowa, "which brought on other diseases—heart trouble, Bright's Disease, nervousness, and at times would be nearly paralyzed. Had neuralgia of stomach. I can freely say your medicines (nine bottles in all, five of 'Favorite Prescription,' four of 'Golden Medical Discovery,' and two vials of Dr. Pierce's Pellets), have cured me. I can work with comfort now, but before I would be tired all the time and have a dizzy headache, and my nerves would be all unstrung so I could not sleep. Now I can sleep and do a big day's work, something I had not done for over eleven years before."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, sent free on receipt of 27 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

HOW A WOMAN GOT HER STRENGTH BACK.

She Took Our Vinol with Good Results.

WE WANT EVERY ONE TO KNOW ABOUT IT.

READ WHAT WE HAVE TO SAY. COME AND SEE US.

We don't want any one in this city to drag themselves through life in pain and misery for the want of enough strength to feel well and happy.

If you feel listless, without ambition and run down, it is a bad sign. You are running grave chances. You are in a condition to be attacked by most any disease.

This feeling of debility is a symptom that your system is generally demoralized. You should take a tonic.

You should take Vinol, which we know and will guarantee will restore your strength.

Following is one case where it did this. Mrs. T. H. Boyle, of 56 Chestnut St., West Newton, Mass., says:

"Last spring I used one bottle of Vinol. At that time I was all run down and sick. I find that it did me lots of good, and by its use my strength came back to me."

Vinol is a delicious preparation, containing the active curative principles that are found in cod-liver oil, dissolved in a delicate table wine.

Vinol acts directly on the stomach, aiding digestion and at the same time creating a healthy appetite. It gives strength and vigor to every organ of the body.

We endorse Vinol, and guarantee its action, and will gladly refund to any one who is not satisfied the money which they paid for it.

"I had been in bed three weeks with grip when my husband brought me Dr. Miles' Nerve, Pain Pills and Nerve and Liver Pills. I was cured." Mrs. J. Reinier, Franklin, Ind.

TO CURE THE GRIP.

Advice of a Famous Physician. First and foremost, rest.

Take care of yourself. Your already weakened nerves want rest, and must have it. If the attack is severe go to bed and remain there. More fatalities result from neglect of this precaution than from any other cause.

Eat sparingly. Your digestive organs are in no condition to take care of the large quantities of food. Drink plenty of pure cold water. It aches the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nerve and Liver Pills.

Take three doses of Dr. Miles' Nerve per day, and if you cannot sleep take an extra dose at bed time. To overcome the fever and to overcome the peculiar aches and pains of the grip, use Dr. Miles' Pain Pills. They act quickly and effectually, and no bad effects result from their use. These remedies have been thoroughly tested more than a million times, and their efficiency is thoroughly established. They never fail to give relief.

Dr. Miles' Remedies can be found at any drug store, and they are sold on a positive guarantee that the first bottle or package benefits or money refunded.

For Grip aches use

For Violating "Olco" Law.

Philadelphia, March 2.—Judge McPherson in the United States district court today sentenced D. S. Ogden, who was found guilty last Tuesday of violating the oleomargarine law, to two months' imprisonment and to pay a fine of \$200.

The case attracted considerable attention because Ogden, who is the head of a large grocery store in this city, was tried twice before the same judge for the same offense. Judge McPherson set the first verdict of guilty aside because it was brought to his attention that a Philadelphia newspaper containing comments on the case had reached the jury room while the jury was in consultation.

Will Fight to Hold Office.

Pittsburg, Pa., March 2.—The Pittsburg ripper bill, which passed the legislature yesterday, will be fought vigorously by the present city officers of Pittsburg and Allegheny, who, under the provisions of the new act, are legislated out of office. In a signed statement Mayor William J. Diehl of this city says he will retain his position as mayor of Pittsburg until the highest courts declare otherwise. Without the seal of Pittsburg no municipal acts are legal, and he asserts that he will keep the seal until the supreme court of the United States decides that he has no right to use it.

Another Steamer in Trouble.

Bermuda, March 2.—The British steamer Castano, Capt. Penwill, after being two days out from this port for New York, has returned for the second time with her propeller loose. The vessel sailed from Liverpool on Jan. 19 for New York. Being blown out of her course and short of coal she put in at St. George's for coal on Feb. 12. After receiving a supply she proceeded on her voyage, but returned with a loose propeller, on the 18th ult. Repairs were made and again she proceeded on the 25th, only to return again with her propeller loose a second time.

Steamship Lines to Combine.

Liverpool, March 2.—Shipping circles here are interested in the reports of an extensive combination of the steamship lines interested in the Brazilian trade, with a capital of £1,000,000. The Booth Steamship company has already acquired the Red Cross line.

Bowling Record Broken.

Columbus, Ohio, March 2.—Last night the world's bowling record for two games in league tournament was broken here by the Palace team of the United league. In the first game the men rolled 1,006 and in the second 1,052, the average, 1,029, breaking the world's record, formerly held by Anson's team of Chicago.

Presented to the Emperor.

PERSONALS.

Mrs. E. P. Green has recovered from an attack of the grip at Canasota, N. Y., by the use of Dr. Miles' Pain Pills.

Among the victims of the grip epidemic now so prevalent, F. Coyle is recovering at Canton, O., by the use of Dr. Miles' Nerve and Pills.

W. E. Nihells, of St. Louis, Mo., who was down with grip, is reported much improved. He used Dr. Miles' Nerve and Pills.

The friends of Mrs. L. Denison will be pleased to learn of her recovery from grip, at her home in Bay City, Mich., through the use of Dr. Miles' Nerve and Pills.

Everybody says that J. W. Udy is looking splendid since his recovery from the grip at his home in Des Moines, Iowa. They all know that Dr. Miles' Nerve was what cured him.

At nearly three score and ten Mrs. Galen Humphrey was fighting against odds when the grip attacked her, but she took Dr. Miles' Nerve, and now her neighbors at Wareham, Mass., remark on how well she is looking.

Prosecuting Attorney Charles L. De Waele, who has passed the three-score mile stone, had a time with the grip; but when seen at his home in Roscommon, Mich., the other day, he said Dr. Miles' Nerve was what cured him.

After an illness of five weeks from the grip, Mrs. Harriet Jackson is again about and looking fine. She began taking Dr. Miles' Nerve after the fourth week. Her home is in Bowling Green, Mo.

"I was given up to die from heart and nervous troubles caused by grip. Six bottles each of Dr. Miles' Heart Cure and Nerve cured me."—Mrs. John Wolfelt, Jefferson, Wis.

"Grip robbed me of my sleep and I was nearly crazy with neuralgia and headache. Dr. Miles' Pain Pills and Nerve cured me."—Mrs. Pearl Bush, Holland, Mich.

"Failing to find relief from the grip with old methods, I took Dr. Miles' Pain Pills, Nerve and Liver and Liver Pills and was permanently cured."—Gust. Egan, Jackson, Mich.

THE ARMY BILL IS FORCED

Decisive Action Taken By the House.

WILD SCENES OF DISORDER.

The Bill as Passed Carries the Philippine Amendment Extending the President's Powers in the Archipelago, and Also the Cuban Amendment.

Washington, D. C., March 2.—The army appropriation bill passed the house amid scenes of excitement. It now goes to the president for his signature. The bill carries the Philippine amendment extending the president's powers in the archipelago and also the Cuban amendment specifying the conditions under which the American army will be withdrawn from that island. The four hours during which the bill was under consideration in the house were the most exciting of the session. The house frequently got beyond the control of the speaker, who had to threaten the appearance of the sergeant-at-arms with his silver mace unless order was restored. Vociferous applause, hisses and cat-calls, whistling, laughter and pounding upon desks greatly amused the spectators in the gallery. All dignity and order disappeared. Members addressing the house could not make themselves heard because of the confusion, personal encounters between members were threatened, and the proceedings reminded many of political conventions and other large gatherings where discipline is not strictly enforced.

Four Republicans Voted Nay. The bill was passed by a vote of 159 yeas to 134 nays—a strict party vote, with the exception of McCall (Mass.), Loud (Cal.), Driscoll (N. Y.), and Mann (Ill.), who voted with the Democrats. Cooper (Wis.) answered present and was not paired.

Labor and Railroad Interests.

The senate committee on interstate commerce, and incidentally Senator Cullom, its chairman, came in for caustic comment today because of its failure to secure action upon important bills urged by labor and industrial organizations, but opposed by railroad interests. The charge was made that the railroads dominated the committee and effectively choked off all legislation they did not approve. The issue was raised over the bill to compel railroads to report accidents to the interstate commerce commission, and Senators Lodge, Hoar, Chandler and others were unparrying in their denunciation of the action of the committee. Mr. Cullom presented a strong defense and Senator Elkins of West Virginia, a member of the committee, joined him.

TROUBLES OVER INAUGURATION.

The Six Ambassadors from Europe Demand Front Seats.

Washington, D. C., March 2.—Again the question of ambassadorial precedence is overshadowing the inaugural ceremony at the capitol. Unless the justices of the Supreme court of the United States are willing to take their position after the ambassadors, instead of before them, the representatives of the sovereigns of Europe will be conspicuous by their absence. The arrangement made by the inaugural committee of the senate contemplate the seating of the justices first, then the ambassadors, and after the latter the foreign ministers. There are six ambassadors—Lord Pauncefoot, ambassador of Great Britain; Baron de Fava, ambassador of Italy; Herr von Holleben, ambassador of Germany; M. Jules Cambon, ambassador of France; Count Cassini, ambassador of Russia, and Senor Don Manuel de Aspiroz, ambassador of Mexico.

MILTON JUNCTION.

Milton Junction, March 1.—F. J. Hutchins has purchased the A. O. Vincent farm, south of town and moved there the first of the week. The Junior contest held Tuesday evening was one of the most closely contested ever held here. Every one did good work. The judges were Prof. A. A. Upham of the Whitewater Normal, Miss Clara Hallows of the Whitewater high school, and J. J. Cunningham, attorney, of Janesville. They awarded the first place to Jennie Thorp, second to Paul Seeger, third to Clara Fox. These three are to compete in the general contest next week.

Stomach Troubles In Spring

Are THAT BILIOUS FEELING, bad taste in the mouth, dull headache, sleeplessness, poor appetite.

No matter how careful you are about eating, everything you take into your stomach turns sour, causes distress, pains and unpleasant gases. In this condition it is only a question of time when you will have a well developed case of dyspepsia, or possibly bilious fever.

Don't you understand what these symptoms—these signals of distress—mean?

They are the cries of the stomach for help! It is being overworked. It needs the peculiar tonic qualities and digestive strength to be found only in Hood's Sarsaparilla. We have combined in this medicine the best stomach remedies known to the medical profession, and thousands of grateful letters telling its cures prove it to be the greatest medicine for all stomach troubles ever yet discovered. Try it this Spring.

Mrs. Shelly, who writes the following letter, is the wife of Rev. D. H. Shelly, for forty years in the ministry of the United Brethren. By her kindly nature and gentle disposition she has won hundreds of friends, who rejoice in her restoration to health:

"I suffered for years with sour stomach, sometimes called water brash. I could not drink either cold or warm water because it would sour on my stomach. I was bloated and weighed over 200 pounds. My blood did not circulate properly, and if others around me were warm I seemed to be freezing. I had numbness in my right side and arms. The physician advised a thorough course of treatment with a blood medicine in the spring, as at that time my body was covered with scales caused by an affliction of dry eczema. Having commenced treatment with Hood's Sarsaparilla I continued taking the second bottle, after which I could sleep well. My digestion began to improve and I fell away in weight. I have little or no trouble from eczema now and my weight is 180 pounds, about normal. My food digests properly and I am not troubled with numbness. I am also able to drink cold water, a privilege which people do not fully appreciate until they are deprived of it. I think a great deal of Hood's Sarsaparilla and it certainly has effected very remarkable results." Mrs. D. H. Shelly, 836 Yoeman Street, Ionia, Mich.

Every druggist sells Hood's Sarsaparilla. But be sure you get Hood's, and not a substitute. Hood's is Peculiar to Itself.

FAITH AND SELF RELIANCE.
If you could look into the mind of the little child as it toddles across the floor and falls into the mother's outstretched arms, in its first effort to walk, you would discover faith in embryo. The mother has won the confidence of the baby, and with dawning ambition it has implicit trust in the ability of the mother to preserve it from harm.

That is faith. An attribute of the mind, with which every normal life is endowed, and as necessary to existence as are the hands to the body. And yet some people pray for faith as ignorantly as others fold their hands and pray for bread.

Watch the same little child a few days later when the mother is not present, and note the workings of the active little mind. Climbing up by a chair, it runs across the room shouting with glee, because it has learned to walk alone.

That is faith in itself? called self reliance, another quality of the mind that an all wise Creator intended all of his creatures to possess, but for the development of which He holds them responsible.

The world is long on faith, but wonderfully short on self reliance.

Follow the baby from the nursery out into life and you can discover at every stage of development, down to old age, no lack of faith, but you are liable to discover a wonderful lack of self reliance.

The boy in the home possesses, as he should, a world of confidence in his father and mother. In the school he has the same confidence in the teacher. He goes out from the home and the school with a heart full of faith in humanity, but in his effort to stand alone and meet the responsibilities and difficulties that surround him, he finds that he is lacking in strength, because he has never cultivated that rarest grace, self reliance. Temptations come to him, discouragements engulf him, the pleasures of life fascinate him, and he becomes a drifter on the sea of human experience, where strong, self reliant characters are ever stemming the tide.

His faith has not forsaken him. In fact, he has been over confident all too frequently, and as a result, misfortune has come to him.

This common, yet mysterious thing, that we call faith, is the foundation of all that is good and helpful in life, as well as the cause of much suffering and misery.

Visit the little home established ten years ago, where faith and love have journeyed hand in hand with ever increasing trust and fidelity. The father, mother and children form a close and happy circle, and life is complete in happiness and helpfulness, because faith has never been betrayed or confidence weakened.

In that other home across the street conditions are entirely different. The same trust and confidence laid the foundations of this home, but the test of time interfered with the building. The husband fell a victim to old habits, and the wife became absorbed in selfishness. Distrust succeeded confidence, and the idols of faith were shattered.

A business man enjoys the confidence of the financial and business world, because of the reputation established for honesty and ability. It is worth more to him than the money invested because it is the world's great circulating medium, on which ninety-five per cent. of its business is transacted.

His next door neighbor may possess more money but be destitute of credit, because he has betrayed confidence, and the business world has lost faith in him.

The young man who holds a position of responsibility and fills it well, succeeds because of the faith inspired. He has never betrayed a trust, and he goes on into the years of independence and wealth, a monument of integrity and stability, and all because he was faithful, and everybody had confidence in him.

The young man at his elbow with equal opportunities, goes on into life and fails because of unfaithfulness, that destroyed confidence, and left him a wreck.

And so all through social and business life men and women are succeeding and failing, gaining happiness or suffering disappointment and misery, all equipped with the same kind of hands, the same kind of feet and the same kind of faith. Results

have been determined by the use or abuse of the faculty.

In the Christian world conditions are very similar. "Have faith in God," is a Divine command, perhaps a little more difficult to apprehend than when applied to humanity, and yet there are very few people in this enlightened land who do not have faith in God. Every intelligent mind recognizes him as the Creator and Governor of the universe.

This knowledge may or may not beget love. There are a great many people who believe in God as the Creator, and in His Son as the world's Redeemer, whose faith stops with the knowledge.

A boy may have faith in the ability and willingness of his father to help him in his trouble, but he may be too timid or too stubborn to go to him. His faith is not at fault, but his lack of action is. Practical faith in the Christian world is faith in action. Faith with work.

The self reliant Christian man or woman, uses faith and every other faculty of the mind and body, to work out a destiny here, and to lay up an inheritance in the hereafter. In days of darkness and disappointment, when vision is clouded and the pathway uncertain, faith in God, not only as a Creator, but as the Preserver and everlasting Protector, is like an anchor to the soul, "both sure and steadfast."

Let us intelligently use the faculties God has given us, and cultivate more self reliance, and measure up to the full stature of man and womanhood.

The Primary Election bill does not appear to be gaining in popularity. The friends of the measure seem to think that a few thousand names signed to petitions express the sentiment of the state. A petition is an easy thing to obtain, and if the opponents of the bill thought it necessary to use petitions the legislature could be flooded with them in a very few days. But where the air is full of opposition there is no need of petitions. The legislature will not adjourn until after the spring election. If they want an expression of sentiment from the towns and cities, let the people vote on it in April.

Charles T. Yerkes has recently sold his street railway holdings in Chicago, and will devote his energies for the next few years to New York and London. Mr. Yerkes was never more than half appreciated by Chicago people. He accomplished more for the permanent improvement of the city than any dozen men in it. And yet he was manna more than any other man. The Chicago Tribune seemed to take special delight in abusing him. He will make his mark in London and it will have an American stamp on it.

The bill to admit infants to the Children's Home at Sparta, is likely to pass. This is as it should be. There has been no intelligent argument produced against the measure. The only opposition is from the Children's Home Society in Milwaukee, and there is no strength in the objections they urge. The state is in position to take good care of the children with but little additional expense, and the most of them will be placed in good homes, soon after entering the institution.

Boston is not to be outdone by New York. The critics of her public library have rejected such works as "David Harum," Mr. Howell's book, "Their Silver Wedding," Mrs. Ward's "Eleanor" and over one half of the books favorably reviewed by the New York "Nation." Boston critics ought to form a trust with New York regents.

The prospect of securing a donation from Mr. Carnegie for a library building seems flattering and will rejoice the hearts of Janesville people. If the gift is secured the city will have one of the best library buildings in the state. Supplemented by Mr. Elred's bequest it will be possible to have a building that will be an ornament to the donors for many generations.

It is enough to make every American's blood boil to hear our soldiers or sailors vilified as partakers in a conspiracy to crush a worthy people. Wherever the American flag floats you will find just laws and true freedom.

While the school superintendents are discussing the spelling book, in Chicago; in New York college professors are considering "Holomorphism" and co-gredient isomorphism, things that lie nearest to the heart of every true American.

The resolutions of the senate committee cover the points outlined by the president, and if adopted by congress and Cuba, will vouchsafe the best of relations for peace and advancement that the intelligent world could wish.

The new star is either afraid of the theater trust or J. Pierpont Morgan, for it has decided to depart.

Moser Testifies in Murder Case.

Pekin, Ill., March 2.—The Moser trial progressed rapidly and the end is in sight. The defense rested at 6 o'clock p. m., at the conclusion of the cross-examination of the defendant, who took the stand in his own behalf. The effect of Moser's testimony was negative. He did not appear to advantage in the hands of his counsel, returning monosyllabic replies to the questioning, often saying: "I have told you" or mumbling: "Don't know." Many of his replies were unintelligible. He failed to recall a great many of the facts leading up to the crime.

Killed His Father and Mother.

Orlando, O. T., March 2.—Dell Johnson, living with his parents, nine miles west of Orlando, shot his father and mother with a Winchester, killing them instantly. The father was shot while sitting on the side of his bed preparing to retire, and the mother was shot as she was entering the room. The murderer is unmarried and about 26 years old. He has been arrested. He was adjudged insane some time ago, but was thought to have been cured.

One Dead in Rabun.

Lincoln, Neb., March 2.—When the

rooms of the west cell house of the penitentiary were searched, the remains of George Pfleger, a convict, were discovered in his cell. He had been released with the other convicts upon the breaking out of the fire, but returned to save some personal effects. The entire main building was destroyed, and the loss will probably exceed \$200,000, as none of the property was insured.

Kills Himself in Church.

Leadville, Colo., March 2.—William W. Bond, a well-known young man of this city, committed suicide in a dramatic manner. He was an usher at the Lenten services of the Episcopal church, and just as services started he raised a bottle to his lips and drank an ounce of carbolic acid. He then walked to the pulpit and asked the minister to pray for him. Bond died in agony a few moments later.

Burns Son and Self.

Denison, Iowa, March 2.—Henry Wain, a farmer six miles north of Denison, during a fit of insane fury, killed and cremated his son, William, burned his house, barn, horses, cattle, grain, and all farm implements and \$1,500 in cash, and then committed suicide by rushing into the burning barn and dying among his horses.

J. W. Grubb is confined to the house with an attack of the grip.

GOOD, CLEAN,

it is cheaper to buy good clean coal is easily explained. Our good, clean coal is all coal, free from the impurities found in most coals. Don't pay for slate, dust, etc. Order Good clean coal of **BADGER COAL CO.** Phone 636.

COAL
Some people pay more per ton for coal than others, yet they are all charged the same price. The explanation of this seeming inconsistency, is that some buy ordinary coal, while others (the wise buyer) order **GOOD, CLEAN COAL.**

DOCTORS DOUBT ITS BEING SMALL POX

MAY BE CUBAN ITCH, CHICKEN
POX OR SOMETHING ELSE.

Interesting Discussion of That Disease
By the Members of the Rock County
Medical Society at a Meeting Held
Last Night—Out of Town Physi-
cians Present.

Is the disease which has been prevalent all over the United States during the present winter and which has occasioned so much terror in many communities small-pox in a new form or is it the Cuban itch, the giant chicken pox or some one of a dozen other names by which some members of the medical profession choose to call it? Members of the Rock county medical society are divided on the question the discussion of which made last evening's session of the society one of the most intensely interesting in its history.

Several able papers on the subject of the dread disease were heard and discussed with profit by the members of the society but the one which called forth a perfect storm of opinions was Dr. Q. O. Sutherland's on "Has Small-pox Assumed a New Form?" Dr. Sutherland maintained the affirmative side of the question and the physicians present immediately took issue on the subject. There were many interesting phases in the discussion which followed.

The older physicians, who have seen a great deal of smallpox in all its violence claim that the disease which has prevailed this winter is not smallpox at all but some new malady, their belief being that so few deaths have occurred. The middle aged and younger physicians as a rule held that the disease is small-pox in a new form. Many of the younger men had never seen a case of small pox.

The balance of the program included papers on "The Etiology and Pathology of Smallpox," by Dr. George F. Field; "Vaccination of Small Pox" by Dr. J. F. Pember and "Treatment of Small Pox" by Dr. R. W. Edden.

Dr. Edden was the leader of the meeting which was the regular monthly session of the society. It was exceptionally well attended, those present being Drs. Sutherland, Mills, Field, Pember, Palmer, Edden, Loomis, Cunningham, Buckmaster, Burdick and Fox of this city; Drs. Carr, Buckridge, Bell, Webber, E. C. Helm, A. C. Helm, J. F. Thompson, P. A. Fox, M. G. Spaw, of Beloit; Dr. W. H. Borden, Milton; Dr. Hull of Milton Junction and Dr. Dewire of Sharon. All present took part freely in the discussion and the presence of so many physicians from the outside of the city made the meeting one of special importance.

The delegation from Beloit made the trip overland, taking supper at the Hotel Myers. It was a jolly party and the gentlemen had a merry as well as a profitable evening.

The next meeting of the society will be held on Friday evening, April 5. The subject will be "Amputations" and the leader will be Dr. W. H. Palmer.

Addresses by Laymen.

Addresses by laymen the second in the series of special services in Christ church will be held tomorrow night at the usual hour of 7 o'clock. Addresses will be made by Mr. Wm. Ruger and Mr. H. F. Bliss upon Christianity from the Standpoint of a Lawyer and a Newspaper Man. The public cordially invited.

Mrs. B. R. Hilt Very Ill.

Mrs. Benjamin R. Hilt, who has been seriously ill at her home on Western avenue for several months, is steadily growing weaker, and all hope of her recovery has been abandoned. Mrs. Hilt has been in ill health for a long time, being a sufferer from an abdominal tumor and a complication of diseases. She is a woman of advanced years, and has always been active in her home life and in connection with the Woman's Relief Corps. She has many friends who will be pained to know that her death may be expected at any time.

Out on a Sleigh Ride.

A bob load of young people from the town of Plymouth, drove into the city last evening, and spent several hours very enjoyably at the home of Miss Alice Peaton, who for two years taught, the school in their district. Cards, crokinole and dancing were indulged in refreshments were served, and another day was well begun before good night was said.

Mrs. Frances Whitaker Ill.

Mrs. Frances Whitaker, one of the High school assistants, is quite ill at her home in the opera house block. Mrs. Whitaker is subject to fainting spells, and was taken with a very severe attack while on duty Thursday afternoon. A physician was called, and she was taken home. She was unable to be at school yesterday, but it is thought that she will return to her duties on Monday.

No period of our country's history is more thrilling and full of interest than the "First Days of the Confederacy," and no man is better fitted to tell of them than General Gordon. He will not lack for listeners and neither will he disappoint them.

There is a great deal of dissatisfaction over the manner in which the work of cleaning up the streets is being done and business men are not slow in voicing their indignation at the condition of affairs on Milwaukee street, especially on the bridge.

An open switch in the C. M. & St. P. R. R. yards caused four freight cars to leave the track near the passenger station this morning. Academy and West Bluff streets were blocked for some time while the cars were being run back onto the track.

A jury consisting of E. T. Brown, D. M. Barless, Homer Paul, F. F. Pierson and J. T. DeForest after listening to the testimony of the doctors and other witnesses, in the county court yesterday decided that Miss Della Batten of Hanover was sane.

The members of the Rusk Lyceum gave a very pleasant dancing party at the East Side Odd Fellows' hall last evening. The party was well attended and all enjoyed themselves very much. Bauman's orchestra furnished the music. It is the intention of the lyceum to give another party after Lent.

More interest is being manifested in the lecture to be given next week Tuesday by General John B. Gordon than in any lecture given here for some time. Not only is General Gordon one of the great men of the time but he is one of the best orators in the country. He has a message to give and he knows how to give it.

A reception will be tendered the parents of the pupils of the Douglas school at the building this evening. It is hoped that all parents will attend as an exhibition of the work done by the pupils will be made. This is done to acquaint the parents with the way the foundation of a child's education is laid. The reception will begin at seven o'clock.

The High school girls' basketball team will not go to Waukesha next Friday night as had been expected. The principal of the Waukesha school met Superintendent Mayo in Chicago, and told him that the challenge had been extended without his knowledge. He said it would be impossible for the Waukesha girls to pay the expenses of the visiting team, as not more than six dollars would be taken in at a game.

Optimism and Pessimism.

President Hyde, of Bowdoin, gives these rules for acquiring an art of pessimism: "Live in the passive voice; be intent on what you can get, rather than on what you can do. Live in the subjunctive mood, meditating on what might be rather than what actually is. Live in the third person, finding fault with other people instead of telling your own affairs in order, and prescribing their duties rather than attending to your own. Live in the plural number, following the opinions and standards of respectability of other people rather than your own perception of what is fit and proper. Keep these rules faithfully, always measuring the worth of life in terms of personal pleasure rather than in terms of growth of character or service of high ends, and you will be a pessimist before you know it." President Hyde's rules for acquiring the art of optimism are the inverse of those that have been quoted, namely, live in the active voice, in the indicative mood, in the present tense, in the singular number. It is certainly the optimist that is of the most use in the world.

ANNUAL MEETING OF CALEDONIAN SOCIETY

Officers Will Be Elected for the Ensuing Year and Other Business of Importance Transacted.

The annual meeting of the Rock county Caledonian society will be held in the society's club rooms next Thursday afternoon, March 7, at two o'clock at which time officers will be elected for the ensuing year and other important business will be transacted. Notices have been sent to the members of the society and a full attendance is desired.

On the evening of the same day a social which will be worthy of the society's reputation for delightful gatherings, will be held in the Armory, formerly known as Concordia hall, to which all friends of the society are invited. The first part of the evening will be devoted to a musical and literary program of more than usual excellence.

Supt. D. D. Mayne will exhibit his stereoscopic views of Scotland which were to have been given at the Burns anniversary, but were necessarily omitted to the disappointment of the audience. Prof. A. J. Hutton of the Whitewater Normal school has been secured for an address which is sure to be of interest to all. Among the other attractive features on the program will be a recitation by Miss Fannie O'Rourke and a vocal solo by Mrs. W. S. Jeffris with Mrs. C. N. Vankirk as pianist.

Following the program there will be dancing. Smith's orchestra having been engaged for the occasion. It has been some time since the Caledonian society has given one of their socials for which they have been so famous and the attendance will doubtless be large.

MR. AND MRS. NOYES ENTERTAIN FRIENDS

Six O'clock Dinner Given at Their Pleasant Home in the Town of Rock Last Night.

One of the most delightful social events of the season was the six o'clock dinner given by Mr. and Mrs. Willis Noyes at their pleasant home in the town of Rock last evening. The guests numbered about forty and while the party which was to have been given some time ago, but was postponed on account of Mrs. Noyes' illness, was not given especially in honor of Mr. and Mrs. Stephen D. Grubb, as has been stated, still the presence of the bride and groom added infinitely to the pleasure of the occasion. Those who have ever enjoyed the hospitality of Mr. and Mrs. Noyes know full well the feast of good things both material and social, with which their guests of last evening were served. The dinner was a triumph of culinary skill and its service was very attractive.

After dinner the evening was devoted to the playing of six-handed euchre the prizes being won by Mr. and Mrs. H. D. Murdock. The gentleman's prize was a live hen and the ladies' was a basket of eggs but both had to be taken from their native hearth by the winners of the prizes assisted by their partners of the evening. Mrs. T. O. Howe helped Mr. Murdock in capturing the hen and W. H. H. Macdonald gave Mrs. Murdock valuable advice on finding hens' nests. The awarding of the prizes was not the only unique feature of the evening which will ever occupy a distinctive position in the memories of all of those who entered heartily into the genuine fun which reigned supreme all of the evening.

THE HORSE MARKET IMPROVING GREATLY

Alexander Galbraith Sells Five Head During the Week at an Average Price of \$1,485.

In spite of the introduction of automobiles to take their places horses are steadily advancing in price. The reaction is more pronounced in heavy draft and coach horses than in other classes. It will encourage the farmer who has had horses for the last few years that he could hardly give away to know that the horse market is picking up.

During the last week Alexander Galbraith has sold five pure bred draft stallions at an average price of \$1,485. No such sale as this has taken place for the last nine years and it goes to show that horses are still in demand. The horses went mostly to Illinois, Iowa and Wisconsin buyers. Mr. Galbraith reports an active demand for the best class of stock and has had numerous inquiries extending from Long Island to British Columbia. It is such sales as the one made by Mr. Galbraith that helps the horse market and shows that there is a good demand for the best grade of horses. The demand for other grades of horses has also increased of late and the man that owns a handsome coach or driving horse can find a market for him at a fair price. There has also been a big demand of late for the cheaper grade of horses which has been caused

by the number of horses used for war purposes all over the world. In fact the outlook for horses is brighter at present than it has been for the last nine years.

MORE MONEY FOR THE JANESVILLE P. O.

Telegram From Congressman Cooper That the Limit of Cost Has Been Increased By the House.

There is prospect now that there will be some work done this season on the new postoffice building. The following telegram was received this afternoon: "Washington, D. C., March 2, 1901—Oscar F. Nowlan, Postmaster:—The bill increasing the limit of cost for the Janesville building to seventy-five thousand dollars, has just passed the house. H. A. Cooper."

It has been claimed that work was held up on the foundations until this extra appropriation would pass congress. No doubt a beginning will now be made.

POLICE ON TRAIL OF THE ROBBERS

It is almost certain that the parties that robbed the safe in Broadhead Tuesday night are the same parties that stole H. S. Seever's horse and cutter from his barn that night and turned it loose after reaching this city.

A jimmy was found in the road where it had been dropped by one of the thieves when they were carrying the cutter from the barn to the road, a distance of about twenty rods.

The jimmy besides being used for prying, has three square holes cut in it, so it could be used to turn a tap with which the thread is cut in the safe door after the hole has been drilled into the lock.

A robe and blanket that were taken at the time the cutter was taken, have not been found and the cushion is missing. The officers have not yet found any clue that would lead to the detection of the guilty parties.

Francis Murphy League

Every man in the city is cordially invited to attend the meeting of the Francis Murphy Temperance League at the Y. M. C. A. building tomorrow afternoon at 3 o'clock. President A. E. Matheson will have charge of the meeting and the principal address will be given by Horace McElroy, who never fails to interest an audience. There will be other good speakers, and special music has been provided for the occasion. It will be an interesting meeting, and one which it will profit every man to attend.

WHAT

One Doctor Said.

A prominent local physician when harding a patient a prescription, said: "You had better have that filled at Sarasy's." The patient asked why, and the doctor answered, "Well, they have been filling prescriptions for me and they have never made a mistake, never kept me waiting and never overcharged. Isn't that reason enough?" And we guess it was, for we filled it. We would like to fill the next prescription you have.

UPHOLD A STATES DIGNITY

It Cost Illinois Five Hundred Dollars a Minute.

TROOPS PROTECT A TRIAL.

Governor Foster Plan for Preventing Lynching Law Is Successful—Albert Shenkle, Assniler, Saved from a Horrible Fate at Hands of a Mob.

Carrollton, Ill., March 2.—Five hundred dollars a minute was the price paid by the state of Illinois to preserve the peace and dignity of the commonwealth in the city of Carrollton. In something less than four minutes Judge Owen P. Thompson of Jacksonville, sitting in the circuit court of Greene county, disposed of the case of the people against George Albert Shenkle. Within that time the man pleaded guilty to the charge of assaulting little Grace Giller at Whitehall last Christmas evening, was given an indeterminate sentence, and was safely on his way to the penitentiary at Chester. That this outcome might be successfully accomplished, 200 of the citizen soldiery of the state had been assembled to make a show of force before the people of the Greene county capital. It cost the taxpayers of Illinois some \$2,000 to make the display, but it produced meek acquiescence in the dignified methods of law and order and the sheriff, who for two months has been hustling his prisoner successively from Whitehall to Carrollton, to Jerseyville, to Alton, to Edwardsville, and finally to Springfield to evade determined mobs bent on lynching, was freed from the threat that he would never be permitted to bring his man into a courtroom.

IS SAVED FROM THE MOB.

Albert Shenkle, Assniler, Protected by State Troops.

Carrollton, Ill., March 2.—Albert Shenkle, charged with attacking Miss Giller of White Hall, was brought here by Sheriff Conlee of Greene county, under escort of four companies of state militia ordered out by Gov. Yates. There was a crowd at the depot, but owing to the precautions taken to prevent violence there was no immediate demonstration.

Shenkle smiled when he beheld the peaceful conditions prevailing here and said he was confident he would not be injured. He had been in mortal fear of lynching.

Shenkle in Court.

No one but court attaches, a squad of militia and newspaper correspondents was allowed in the courtroom, and when Judge Thompson finally took his seat the proceedings bore all the aspects of a military trial.

No unnecessary time was wasted in preliminaries. The warrant charging Shenkle with an attack on little Grace Giller was read and the prisoner asked to plead.

"I plead guilty," said Shenkle.

"The judgment on your plea is that you be confined in the penitentiary at Chester, there to remain until your discharge in the due process of law," said Judge Thompson.

Shenkle flushed, bit his lips, then sat down.

Sheriff Conlee arose, and, without a word, the condemned prisoner extended his hands for the shackles. A moment later the militia formed a guard around the sheriff and his prisoner and started down the street for the station. Within five minutes after their arrival the train departed for Chester.

At Godfrey twenty members of the engineer company of Springfield took charge of Shenkle. He was taken as

far as East St. Louis on the special train under escort and then turned over to Sheriff Conlee, who proceeded with him to the Chester penitentiary. The remainder of the troops, including company C of Springfield, company B of Taylorville and company D of Bloomington, all of the Fifth regiment, returned on their special train to Springfield, where they disbanded.

The crime for which Shenkle will be sentenced today was committed Dec. 23. His victim was Della Giller, the 13-year-old daughter of Charles Giller, a prominent citizen of Carrollton, and a granddaughter of Major Giller, a well known politician of Illinois. The crime was a most heinous one and aroused the populace to fury.

Race for Prisoner's Life.

Threats of lynching were rife, and the sheriff shortly after the arrest of his prisoner, spirited him across the country in a buggy to Jerseyville, twelve miles distant, just in time to save him from lynching. During the sheriff's absence his dwelling and the jail were broken into by the mob and searched from top to bottom. Fearing that his hiding place was too near Carrollton to be secure, the sheriff sent a deputy to Jerseyville and had the prisoner removed to Alton. Here the city prison was insecure and he was again transferred to the county jail at Edwardsville. Arrangements were then made to bring him to Springfield, but this was not done at that time. Sheriff Conlee slipped into the capital with his prisoner and handed him over to the temporary custody of Sheriff Woods.

Found Dead with Throat Cut.

Sault Ste. Marie, Mich., March 2.—Douglas Logan, a Superior township farmer, was found dead in the road half a mile from his home with his throat cut. Logan operated a pulpwood camp near Brimley and had not been seen since Tuesday. It is believed to be a murder, although there is no clue to the murderer nor known motive for such a crime.

Reports of a New Oil Gusher.

Dallas, Tex., March 2.—A report has reached Dallas that another wonderful oil strike was made twenty miles from Beaumont. It is said a stream of oil is shooting from the new well nearly 200 feet into the air.

Why He Shot Bogolipoff.

St. Petersburg, March 2.—Karpovien, who shot at and wounded the minister of public instruction, M. Bogolipoff, last Wednesday, while the minister was holding a reception, and who was subsequently arrested, was expelled from the Moscow university in 1896 for taking part in the students' riots there. He was also expelled from the Dorpat university for the same reasons in 1898 and studied at the Berlin university in 1900.

Ismail Messier Heard From.

Marion, Ind., March 2.—Israel Messier of Fort Wayne, Ind., reported missing and thought to have been murdered for the \$12,000 he carried, has been found. He visited his brother, Amos P. Messier, a minister, living in this city, divided his money with him and in his company left Monday night for Fall City, Neb., whence the two will go to California.

Three Dead and Six Missing.

Rochester, N. Y., March 2.—Leary's dye works burned yesterday. Three persons were taken out dead. It is rumored that six girls working in the building are missing and probably burned to death. The building is a five-story structure, upon the upper floors of which is located the Seneca Camera company, employing a large force of men and women.

Stabs His Rival with a Dirk.

Marion, Ind., March 2.—William Mitchell met William Jones in a saloon and stabbed him with a dirk. Jones expired instantly. Mitchell fled to the woods. A posse started in pursuit. Mitchell and Jones were said to be rivals in a love affair.

Joseph W. Taylor Dead.

Denver, Col., March 2.—Joseph W. Taylor, one of the most prominent members of the Colorado bar, died unexpectedly here. He was seized with nausea and strangled to death while unconscious. Born in Jacksonville, Ill., fifty-nine years ago, Mr. Taylor received his legal education as a student under Adlai E. Stevenson, former vice-president of the United States. He served in the Fifty-first Illinois infantry as second lieutenant and afterward took a course in the Ann Arbor law school. Then he moved to Lawrence, Kan., where he was active both in law and in politics.

Powers Will Protest.

Pekin, March 2.—The representatives of the foreign powers have sent a protest to the Chinese peace commissioners against the action of Yang Yu, the Chinese minister at St. Petersburg, in regard to carrying on negotiations with Russia in regard to Manchuria at the Russian capital. They have requested the Chinese envoys to ask Emperor Kwang Hsu to withdraw Yang Yu's power to negotiate this treaty and to commit the affair to the concert of the ministers.

If the reader wants anything stronger than opinions and experiences of his neighbors, what can it be?

Mr. L. Lawrence, of 468 S. Franklin St., engineer at the Janesville Electric Light Co., says:

"Seven years ago I injured my back by falling through a bridge near Alton, into the Rock river. I was on a traction engine, its weight broke through, and the whole thing went into the stream. Since that time my back has ached by spells, so sometimes very severely. If I caught cold it settled in my kidneys and if I brought a strain on my back lifting, the result was a bad backache, and sharp twinges of pain in my loins I procured Doan's Kidney Pills and after I used them I was free from backache. I am in better health than at any time since falling through the bridge."

A Strong Woman

Iowa City, Iowa, Aug. 15, 1900. My wife was sick for three years. We tried everything without relief and spent much money. My wife tried Wine of Cardui and four bottles cured her. She took two more bottles, knowing she would have to work hard during the hay harvest. She attended to all her household duties and loaded and unloaded all the hay. This medicine gave her strength. Formerly she was weak and tired and could hardly get about, but since she has been taking Wine of Cardui she feels better and stronger than when 20 years of age. JOS. A. EISENHAFER.

Mrs. Eisenhafer had tried everything during her three years sickness and had spent considerable money. She was weak and could hardly get about for three years before she took

WINE OF CARDUI

Now, after taking the Wine of Cardui, she can work with her husband in the hay field. That is hard work, but it is not as injurious to a woman's health as labor in stores, factories and offices where thousands of girls are closely confined year after year. With the aid of Wine of Cardui a woman can do any reasonable work and enjoy good health. The health that Wine of Cardui brings makes a woman vigorous in body and mind. Freed from those terrible devastating pains a woman grows well and strong naturally. Wine of Cardui regulates the disordered menstruation and cures leucorrhoea, falling of the womb and periodical pains in the head and back caused by standing or sitting a long time in the same position. Thedford's Black-Draught puts the bowels, stomach, liver, kidneys and blood in proper shape. Greatly increased strength and endurance is the natural result. Most cases are cured quickly. All druggists sell \$1.00 bottles of Wine of Cardui and 25 cent packages of Thedford's Black-Draught.
